Dan,

Here is one of two examples I have with this movement.

Gruen lists this as a caliber 849.

Still have not deduced maker Factory L.

Announcing The GRUEN Cartouche[®]

the logical wrist watch shape

* Cartouche: An ancient Egyptian name of
oblong shape bearing the inscription of royalty.

Here the Gruen Cartouche makes possible greater strength and accuracy by providing almost double the movement space.

THE above diagram explains the growing popularity of the Gruen Cartouche Wrist Watch.

On the arm the Cartouche is not only an ornament of rare beauty and distinction, but it is a timekeeper of dependability as well. Its oblong movement in an oblong case forms a wrist watch of the most logical shape.

Of the same width, with double the space, as the round movement, the Gruen Cartouche provides more space for its parts.

The result is greater sturdiness and accuracy in a small compact wrist watch of beautiful form.

The Gruen Cartouche has heretofore been made only in the higher priced models, chiefly in platinum and diamonds. In response to a wide demand for the Cartouche at moderate prices, the Gruen Guild craftsmen have fashioned the exquisite models shown here.

You may see these Gruen Cartouche Wrist Watches at the best jewelry stores in each community, to which the sale of Gruen Watches is confined. Look for the Gruen Service Emblem displayed by all Chartered Agencies.

Special note: If your jeweler should not yet have these new watches, send your order direct to us and we will supply you through him.
