OK, accompanying papers first, it is a single sheet of paper, printed double sided:

Here comes the folder showing the box. As you can see the inside looks a bit different in this preseries, I think that the introductory folder was made with prototypes of the boxes.

Last but not least a group picture of all 6 Victor / Victoria models:

There is the slight possibility that the boxes were used for the succeeding Victor / Victoria couple of quite different looking watches with the same names which were introduced as successors in 1938.

Prevent dust, lint, cosmetics and perfumes from coming in contact with your watch.

Do not open the back and expose the movement.
