Re: Barney

I agree, and your data lines up nicely with my dating. In fact, production did begin before December 1903, as the earliest dated watch I have seen (125, 255k referenced above) dated to June 1903 (and I wish I could have bought it!! I'm extremely concerned that it was melted for scrap).

I do not have the data point of your ad. Could you post the whole thing, or at least enough that I can determine caliber and jewels? Thanks!

I do not know the caliber for Nr. 7, but I have spotted a number of them in the wild.
