Yes, I did not see an exact match on the myriad other Solvils, just some similarities.

I don't have any way to view the 843. Just working with the 1926 parts catalog & later ones. Assuming I'd need 1921 or the 1926 sup B?

RE: J, I also note an obscured letter on your dial side opposite the stem. Could be a J or a U? Also appears to have a few other light numbers near the hour wheel. Fascinating movement!
