Description

Two-tone hinged wooden box. The lid is covered in dark red fake leather with an Art-Deco style gold embossed emblem. The main body of the box is covered in brown fake leather material with gold printed borders.

Inside the lid has off-white silk, showing text "Gruen Quadron", the Gruen crest and "17 Jewels PRECISION"

The insert holding the watch is missing and I also have no idea what it should look like. Please add a picture if anybody has the info. I can then get creative like Jenneke and try to reproduce it :lol:
