And the winding stem for FHF 1146 10.5 does fit the cal 885. You can buy different variants like 10.5''' or 13''' . Not sure if that has to do with the length or these are for different movements.

Now I need a crown. The crowns I have are to modern (90=tap 10). I think this needs a tap 8 (but my caliper is acting weird). Can someone confirm?
