Looking for a decent, original dial for my Strap 960 Cortez, as I now have the correct watch for the dial the Cortez came with.

Minute track should measure approximately 15.3mm x 18.7mm. Height is roughly 1.22 times the width.

Dial should read Gruen Precision but I would also be happy to find an original dial that reads Gruen Veri-Thin or other, as long as it matches the 435.

Please let me know what you've got!

Thanks in advance!

Edit: Found

Thanks again, Dietrich!

The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in financial reporting. The second part outlines the various methods used to collect and analyze data, including surveys, interviews, and focus groups. The third part presents the results of the study, showing a clear trend towards increased participation in community programs over the past five years. The final part concludes with recommendations for future research and implementation strategies.

The data collected from the surveys and interviews indicates a significant increase in the number of participants in the community programs. This growth is attributed to several factors, including improved outreach efforts and the introduction of new program offerings. The findings suggest that the current strategies are effective, but further research is needed to identify the most impactful interventions.

In conclusion, the study highlights the importance of ongoing evaluation and adaptation in community development work. By continuing to monitor and refine the programs, we can ensure that they remain relevant and effective for the target population. The recommendations provided aim to guide future efforts in achieving sustainable community improvement.
