Hello fellow Gruenites,

I am need of a junker 127. I need the upper plate (small quarter plate) that houses the ratchet spring and click. One of the screws and plate that holds the stem in has broken off(I got it that way...promise) I and will not come out. Therefore, I am looking for the whole caboozle. Any nice folks out there wanna help? By the way, I have this watch sold already.

Tomas
