B,

I'm very curious to know too. I had not seen the IHC posting by Cary, nor was I aware of the 642 being made at Norwood. I'd like to see that. Otherwise, I've seen examples of all the variants of the 335 cal in 17, 21 and 23 Jewels as well as the sweeps seconds variations.

Hopefully Cary can chime in and put this to rest. He offered photos in that IHC thread but the thread dropped later on.

Cheers!
