Hi nepcom! Welcome to the forum.

I believe the "99" stamp on the inner case back is a reference to the movement caliber. This is an early style cartouche model. Although you have a 115 caliber movement fitted to the case, I think it could be correct/original for the watch. The crystal is listed for both a 99/2 & a 115/2. The "2" indicating the crystal style.

The case model appears to be a 'Wristlet 75'.

Beautiful watch!

Liz
