After many years I finally was able to add the 1918 Moisture Proof Military Model to my collection. It is in the mail, but from the pictures it looks to be in pretty good condition.

The only thing that is broken is the connecting link between the inner watch case and outer protection case. I will have a look at that when it arrives. It is fitted with a caliber 807 and the most incredible thing is that the original printed piece of protective cloth is still there.

The watch makers that worked on it have taken the warning seriously

Pictures are taken from the seller. I due time I will post better ones.
