Thank you to the guys that responded so quickly. I had a long week at work and wasn't able to get back on here. Nice to know that I was on the right path with my research. This watch will not be going anywhere except to the next generation in my family. My grandfather purchased this watch brand new back in 1941 or 42, he survived WW2 with it and many years of working in the local forge.

The watch does still work too, runs a little slow I may have it looked at to see if it can be set properly. Wouldn't mind carrying it from time to time.

Thanks again for all the input and have a great weekend!
