Jack,

I'm not at home to measure what I have, but if the length is right, then of course, you can always broach the inside to specs. Of course, you already know that. Also, send me measurements as well, and either myself or GaryM will be happy to help. GaryM, I forgot to tell you that Jack had sent one along. I don't know if it's home yet, as I work 100 miles form at home at Abderdeen Proving Grounds, but will let you know as soon as possible.
