Soooooooooooo, ya'll know how I am pestering the heck out of everyone for watch cases.....specifically the Pan Am???? Welp, (as they say in the hills) I would be perfectly happy with a Gruen guildite case, or pretty much any case that would fit the 420 movement. I just want to wear of few of my Pan Ams, but of course without cases.....???? I have money, parts, Spanish guitar lessons, and jelly beans. Any takers? Can anyone tell me what the diameter is for the 420 case? I've been looking everywhere, but no luck thus far.
