Hi Anne,

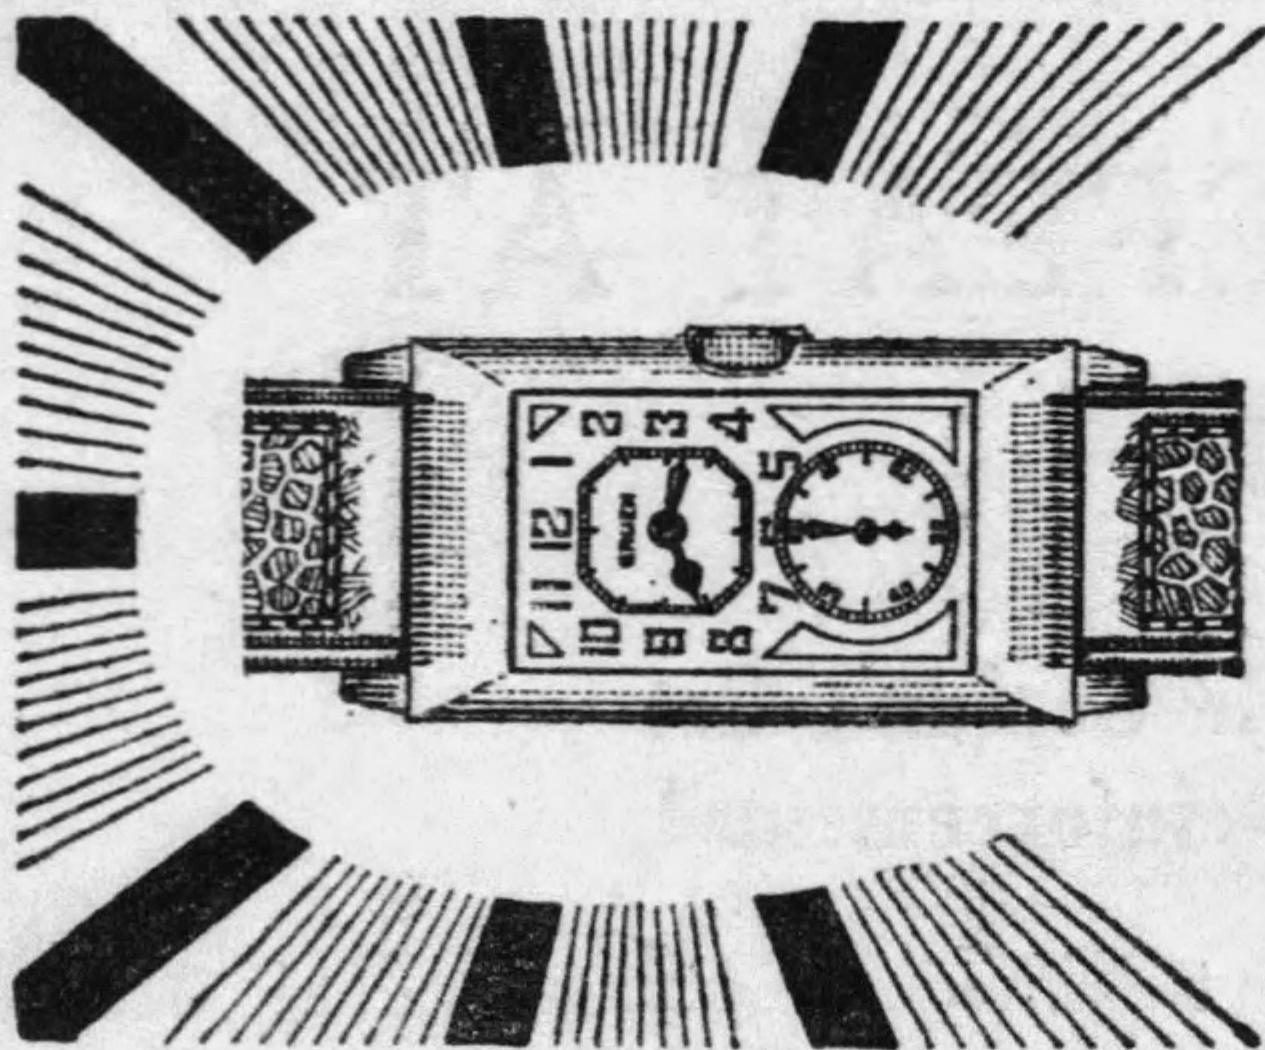

which additional information are you missing? I think we can add some more information if you specify what you want to know.

Here comes a very early ad of your watch, the first I own dates September 1st, 1929. This should be about the introduction date of this watch, the last ad I have is from February 1936. Quite a long availability of this model compared to others.

Best regards
Bernd

for today's swift

The TECHNI-Q

Things move swiftly nowadays. Here's a smart watch geared to the times: the Gruen Techni-Q. Unique in appearance as it is in construction, of its movement.
