Howdy Gruenites!!!!\\ I am looking for 2 117 crystals for a few Quadrans I have. These are the square 117 variant, with the subframe bezel stuffed neatly under the main bezel. Make sense? No, I didn't think so! Anyway, for those of you who have dealt with this set up, you'll know exactly to what I am mumbling about. Any takers???????????????? Yes, he has money folks, and willing to pay!!!

Kindest Regards,
Timeticker
