That is certainly a possibility.

Found this 1941 ad that includes a gf Colonel (bottom right corner) with expansion band...sure looks like a Trooper to me.

Maybe you can work some of your magic to enlarge and make the print more readable?

It wouldn't be the first time Gruen changed the name based on band type.

is unquestionably the most flatterer watch you could wear today. Thureco's is in its patented Gruen Curve movement. This 'miracle' movement actually curves with the ultra-smart curved case, making possible more working parts for superlative precision and thinness.

so ingeniously are they arranged that the watch is made half again as thin at the sides and ends.

That's what America's ace fashion designers designate Gruen. And the Gruen Carvee and Veri-Thin are two chief reasons. See the latest models now—at your Gruen jeweler.
