Hey guys,

I like these watches! In fact this seems to be a family of four watches which were introduced for Christmas sales 1948 and have partly been advertised until late 1951.

#1) Curvex Chandler as initially shown here.

#2) Same case with expandable metal band, named Curvex Carlton.

#3) the 14k solid gold version: Curvex Majesty

#4) a Curvex Curtis which seems to not have been advertised, at least I never have seen an ad.

After having seen Gary's watch now I'd say this could be it!

Barney
