I'm trying to get everything better organized and to my chagrin I found something I completely forgot about (and can't remember where I got it): A "No. 390 Assortment Genuine Gruen Hands" box as on page 14 of the No 453 Material Catalog. Out of 39 vials only 4 are completely empty.

Check out the catalog for what was included in the box and get in touch if you have one of those watch that could use some new hands because I may be able to help out.
