Hi I have a Gruen ocean chief complete but it doesn't run and was wondering if anyone had a 560rss movement they'd be willing to part with. Let me know. Thanks so much!

Hi,

Welcome to the Gruen forum. Like the user name; great play on words.

So, what is wrong with the 560RSS you have? Lots of parts for it seem to be available, I'd think that what you have is repairable.
