Subject: Hello to all! Posted by Timeticker on Thu, 21 May 2020 16:06:28 GMT View Forum Message <> Reply to Message

Being that this is off topic of Gruendom, I am looking for a complete stem set for an ETA 2472 which is stuffed inside a Glycene Vacuum case. I have the male which is in the watch, but I need the female to make this thing go.

Glad to be back!
