I am not sure whats going on, posts that were added to a post about Caliber 99, do not show up on that page,

They show up on the tree, and in new posts

It would seem maybe, that the 2 posts in question could be on page 2 ? but theres no reference to a page 2

Does that make sense?

B

They turned up Well Done!! whoever?

Is there a way to remove a post completely?
