I'm looking for a Gruen electric battery cap. 16mm diameter hole measured with the callipers. Larger than the cap from my other electric as you can see in the picture. While I'm at can someone tell me the battery size?

Thanks in advance!

Gary,

Try this web site, I think you will find it has all the information you need. Also if you know of anyone that repairs these Electric watches I would sure like to know.

<http://electric-watches.co.uk>

Wow! That guy has everything under the sun.

Thanks a million!

That site is run by Paul, the fellow who serviced my Electra and I would recommend him. If anyone has the part he does. He can also help with the battery.
