The 181 and 183 are practically identical in size and interchangeability at 4 3/4"'. The 181 is a 15 jewel and the 183 is a 7 jewel movement.

181 (left) 183 (right)

Dial side of an 183

Keyless works parts look very similar to marc favre movements. In particular the yoke.

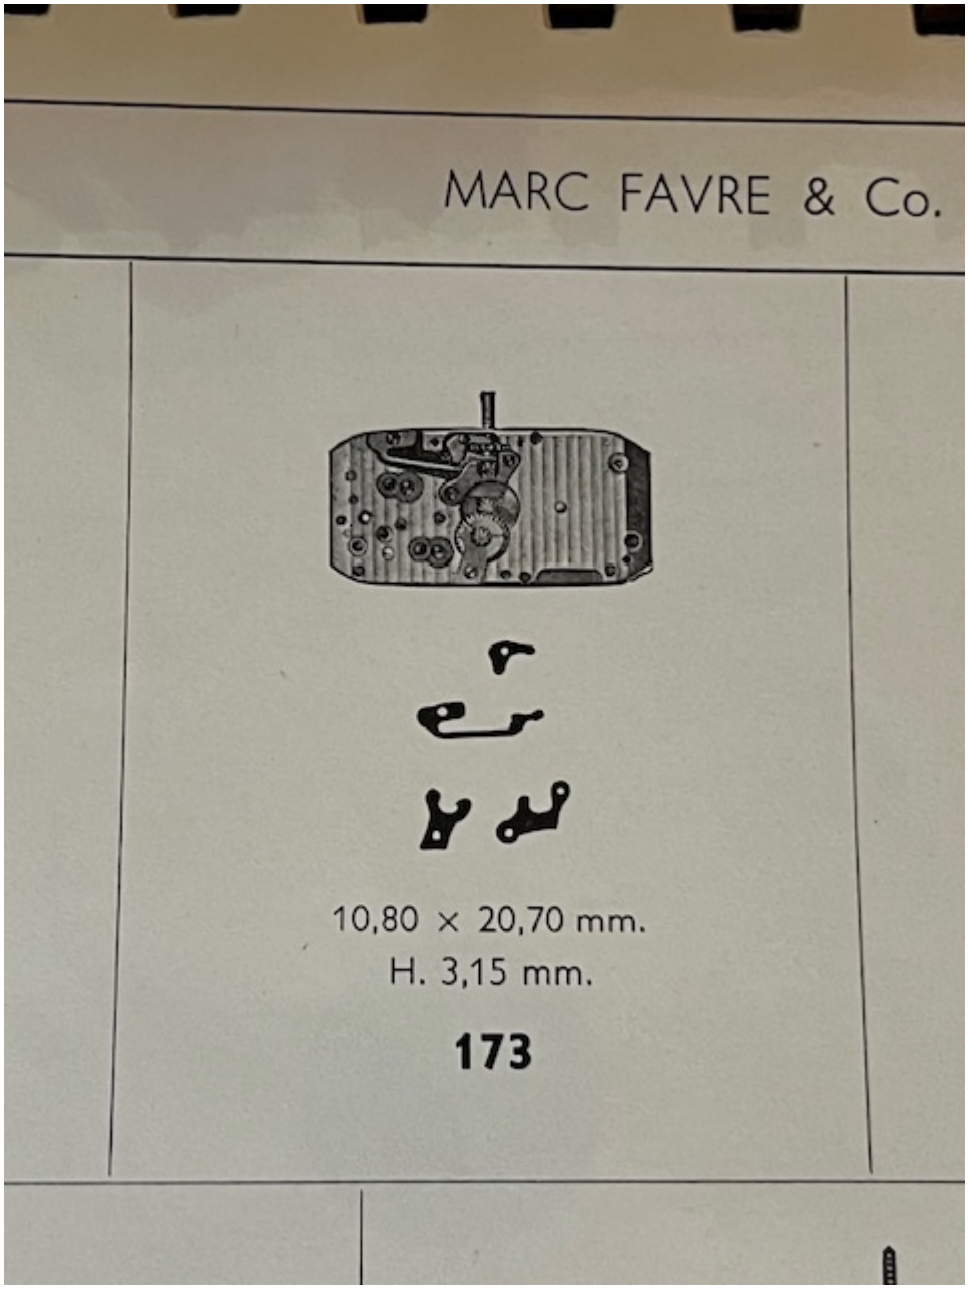

Searched in the Official catalogue of swiss watch repair parts.

caliber number also in the range of proven favre calibers 1xx.

169 is also in the family (11 jewels)

I think the ZJ marking on the dial is for Fluckiger.

Yes, it is a Zelim Jacot dial. Many of the ladies cartouches are.
